TWO YEARS FOR ASSAULT

"On the charge of 'indecent assault,' Thomas Walburn, of Hillcrest, was last night sentenced to serve two years in the penitentiary at Fort Saskatchewan.

Walburn is a widower and has eight children residing at Hillcrest, the eldest about fifteen years.

REMANDED TO MACLEOD

In the case of Rex versus Hatz Weisenhofer, who was remanded last Wednesday until yesterday for the hearing of the preliminary charges of perjury, Mr. M. E. Moscovitch appeared for the accused and waived the preliminary.

The accused was remanded on bail to stand trial at Macleod before the Supreme Court.

FARLEY IS RE-ARRESTED

In the case of Rex versus A. F. Farley, the complainant withdrew the theft charge and Mr. Farley was discharged. An hour afterwards, however, Sergt. Duncan led another information for the same offence and Farley was again arrested.

Mr. E. Moscovitch, from Lethbridge, appeared for Farley, and waived the preliminary, and the accused was remanded to stand trial before the Supreme Court. He is out on bail.

JUNIOR UNION SUNDAY SCHOOL WILL CLOSE

Falling in this with efforts being made to stamp out the measles epidemic, we are asked to announce that the Junior Union Sunday School, at 2:30, will close until further notice. The senior classes will meet at 11 a.m. as usual.

A number of Hillcrest members of the O.E.S. attended the regular meeting of the local lodge on Monday night.

The Lethbridge Herald has it that Tommy Clark refereed Tuesday night's game at Bellevue. Next is ST. LUKE'S CHURCH, BLAIRMORE.

Rev. W. J. Merrick, M.A., of Macleod, will conduct services in Blairmore on Sunday, January 25th. Matins and Holy Communion at 11 a.m.

NOMINATIONS-AND ELECTIONS APPROACHING

Nominations for mayor and council and school trustees will take place on Monday, February 2nd, and election the following Monday.

HOCKEY

Since our last issue, interest of the hockey-loving public has been centred in the two big games between Bellevue and Coleman for the championship of the first section of the season's hockey.

Bellevue played on the Coleman Crystal Rink on Friday night before a packed house. The game was refereed by Harry Scott, sporting editor of the Calgary Alberta, in excellent grand-stand style. The ice was keen and afforded a fast pace throughout. Very few penalties were meted out, and no more were forthcoming. Both teams to finish the game was hectic and neither side could claim an edge. While Coleman's Selkirka and at least of the better forward line, the opposing team balanced up well with a defence line that was almost impenetrable. The result was a popular Coleman having the long end of a three to two score.

The special train reached Coleman at 7:15 p.m. Put the game was held up awaiting the arrival of fans from neighboring towns. Between three and four o'clock the Bellevue team, while fully four hundred return tickets were sold by the Hillcrest agent, so that the major portion of the game that thronged the Crystal Rink came in with the visiting team. The game played Coleman in the favorable position of having played five games and lost none, while Bellevue had played five games and lost one.

The last game of the first section was a return play, at Bellevue on Tuesday night, when the Bellevue boys were victorious in evening up. The ice on this occasion was soft and the going heavy, and shooting was indeed difficult. The game was refereed by A. B. Cook, official referee of the Western Canada Hockey League (Calgary).

The gate receipts on this occasion were the largest for the season and reached a total of \$906.75. The Bellevue band was in attendance and rendered pleasing selections before and after and between periods of the game. The visitors put up an excellent game, but the greater weight of the home team was hard to contend with. Penalties were many and a few offences escaped the notice of the referee, chief among them being the very unorthodox attitude of Daly, of the visitors, in standing over and shaking his stick threateningly at Thompson while the latter lay suffering on the ice. The score was three to two in Bellevue's favor.

In order to decide the winner of the first section, it very likely a game will be played at first opportunity on neutral ice.

BLAIRMORE WINS FROM LETHBRIDGE

Lethbridge visited Blairmore on Monday night and took defeat in a seven to two score like little men. The attendance at the game was the smallest for the season and the game was lacking of real pep. Anderson, of Bellevue, refereed.

This game simply meant the lifting of Blairmore from the cellar to an even step with Lethbridge.

BLAIRMORE AT COLEMAN TONIGHT

Blairmore will once more try conclusions with the Coleman moguls tonight in the opening game of the second section, while Lethbridge will play Bellevue tomorrow night. While both Blairmore and Lethbridge held cellar positions in the first section, fans of both teams are confident they will come back and make good.

Coleman goes to Lethbridge on Tuesday next and Blairmore will entertain Bellevue on Wednesday.

BLAIRMORE VERSUS BELLEVUE TUXIS

One of the fastest games of the season was that played on Saturday night between the Bellevue and Blairmore senior Tuxis teams. Mervin Pruden refereed and had his hands full throughout. Blairmore succeeded in blanking the visitors to the tune of four to none.

RED CROSS WILL HOLD GRAND CARNIVAL AT BELLEVUE

A grand carnival is to be staged on the Bellevue Arena on the night of Wednesday, February the 14th, under auspices of the Red Cross.

We understand that His Honor R. G. Brett, Lieutenant-Governor of Alberta, has signified his willingness to attend and officially open this carnival.

Special features will be broom-ball at 7 p.m., moccasin dance and other amusements. The Bellevue band will be in attendance.

Excellent prizes will be awarded for the best-dressed lady and gent and most comic lady and gent.

Proceeds will go towards the Red Cross fund.

The marriage of Mr. Drake, principal of the Frank public school, to Miss Annie Welsh, youngest daughter of Mr. and Mrs. Robert Welsh of Landrock, was performed in Blairmore last week by the Rev. W. T. Young.

It is understood that the Fernie Swastikas will not participate in the hockey championship games at Banff central this year. It is rumored, however, that some of the Fernie stars will play under Coleman Shamrock's colors in this tournament.

SCHOOL CLOSED BECAUSE OF MEASLES EPIDEMIC

At the request of the medical health officer, the local public school was closed today and will likely remain closed for at least two weeks in an effort to combat an epidemic of measles.

During the past few days a large number of cases have been brought to the attention of the medical and health authorities, who feel that the system of "modified quarantine" is not sufficient. So in order to help wipe out the epidemic, the school will be closed and children will not be allowed to congregate in such places as the theatre.

HIGH SCHOOL WILL REMAIN OPEN

We understand that arrangements have been made to operate Grades VIII to XI, at the local school, in charge of Mr. Conway, Mr. Thomson and Miss Fulton. Mr. Bond is substituting for Miss Fulton this week, and the letter will be on duty Monday morning.

WILL CONSIDER CHURCH UNION ON SUNDAY NIGHT

Following the regular evening service at the Union Church on Sunday next, the congregation will decide on their attitude towards the United Church of Canada.

BELLEVUE L.O.O.F. OFFICERS

Following are the officers of Bellevue Lodge No. 118, L.O.O.F., recently installed by District Deputy G. M. George, Christie:

P.G.—Bro. T. Eder.
V.G.—Bro. Andrew Goodwin.
W.G.—Bro. John Phelan.
Treasurer—Bro. F. Pedgett, P.G.
F.S.—Bro. James Gossens, P.G.
R.S.—Bro. T. Bradley, P.G.
Chaplain—Bro. Geo. Christie, P.G.
Warden—Bro. R. Burns.
Conductor—Bro. G. K. Sirett.
R.S.G.—Bro. D. Morris, P.G.
J.S.G.—Bro. H. Harrison, P.G.
R.S.V.G.—Bro. Bert Dryden, P.G.
L.S.V.G.—Bro. J. Granvall.
James Guard—Bro. J. Goodwin.
Outer Guard—Bro. A. Martell, P.G.
L.S.S.—Bro. W. Goodwin.
R.S.S.—Bro. R. Brown.

PHYTHANS AND SISTERS WILL INSTALL JOINTLY

The officers of Greenhill Temple No. 19, Pythian Sisters, and Livingstone Lodge No. 15, Knights of Pythias, will be installed by joint ceremony at the Castle Hall tomorrow night.

Full attendance of members is requested and visitors will be made welcome.

A social hour will follow the ceremony, during which refreshments will be served.

A Lesson in Success

Teach your children to save. Open a Union Bank Savings Account for each of them. Let them be friends with the Bank Teller and take their own deposits to him.

The easiest road to success is the savings habit.

UNION BANK OF CANADA

SUCCESSFUL YEAR FOR UNION BANK

Annual Statement of Canada's Western Bank Discloses Great Strength in Liquid Assets.

The Union Bank of Canada, with its Head Office located in Winnipeg, is regarded as representative of Western Canada in the banking world, and the sixtieth annual report, which was presented to the shareholders at the annual general meeting held at the Head Office on Tuesday, January 13th, will therefore be of particular interest to all Western Canadians. Being the sixtieth annual report, it is issued, it is the diamond jubilee of the institution.

The year 1924 has seen a continuation of the unsettled business conditions which made the previous year 1923, one of unusual difficulty for banking and financial institutions, and the balance sheet now made public is a striking tribute to the sound policy which has brought the year's business to such a successful conclusion. All legitimate requirements of customers have been met and an efficient nationwide banking service has been maintained.

One of the outstanding features of the report is the great strength of the bank's liquid assets—those investments, holdings, which can quickly and readily be converted into cash should the need arise. The ratio of these gift-edged quickly convertible securities as compared to the bank's total liabilities to the public is over 52 per cent as against 49.5 per cent at the close of the previous year. The profit earned during the year, together with the balance of profits carried over from 1923, give a total of \$1,229,016 available for distribution. This has provided for the payment of the four regular quarterly dividends amounting to \$440,000, Dominion Government taxes \$134,581 and for the annual contribution of \$10,000 to the Officers' Pension Fund. Adhering to the conservative policy, the directors have wisely apportioned the remainder of the profit to a fund of \$25,000 in the value of bank premises, to the setting up of a contingent account of \$120,575.15 as shown by the balance sheet. The reserve and undivided profits are \$2,069,454. In common with the experience of other banks and investment institutions the period under review has shown a small contraction in the amount of deposits. Savings accounts represent \$25,987,201, and current accounts \$25,287,812 of a total of \$52,275,013.

It is to be noted that there is no item corresponding to the liability of \$8,100,000 to the Dominion Government, which appeared in the previous year's statement under the head of "Advance under the Finance Act" indicating that the bank's enviable liquid position has this year enabled it to take care of the peak load of business incident to the movement of Western Canada's crop without having to take advantage of that provision of the Finance Act which permits borrowing from the Government for this purpose.

Shareholders, depositors and the public generally will commend the excellent guidance of the bank's affairs, which has brought such satisfactory returns to the shareholders and at the same time has not only maintained the already strong position of the bank in relation to its liabilities to the public but has improved it, and the statement also reflects much credit on Western Canada for the measure of support and confidence which has enabled the Union Bank to make such a good showing.

BLONDE A BRUNETTE NOW

The Rev. A. Wellesley Orr, vicar of St. Paul's church, Kingston Hill, England, has come out against the use of paint and powder by women. Writing to his parishioners, the vicar says: "Even while we are signing the marriage registers in the church vestry, the bride may get in a few moments' work before the mirror with a powder puff, scissors and a bottle. The man who came into the church in love with a blushing blonde takes out on his arm a blooming bobbed brunette."

HOOT, MON

The haughty English lord was endeavoring to impress the importance of his family upon his guide in the Scottish Highlands.

"Why," he exclaimed, with an eloquent gesture, "my ancestors have had the right to bear arms for the last two hundred years."

"Hoot, Mon," cried the Scot; "my ancestors have had the right to bare legs for the last two thousand years."

O. M. Olson has introduced skis to Blairmore. It may now be possible to remove Turtle Mountain if Ole would kindly ski his 250 pounds against it.

Joseph Joseph, Junior, of Hillcrest, has been caught in his home through illness for the past couple of weeks.

HILLCREST HAPPENINGS

Tony is all smiles these days, the cause being the arrival of a baby girl.

Harry White was stricken suddenly ill on Sunday morning and is resting quietly at present.

Plans are all laid for a carnival and moosehead dance on Saturday—if suitable music for outside can be secured.

Mrs. Ryan returned on Friday, after spending a few days with her daughter, Mrs. James Leigh, at Cowley.

It is understood that arrangements are being made to remove the Weiburn children to another locality, where they will attend school.

Hillcrest is prepared to put a ladies' hockey team and act any ladies' team in the Pass, not under forty years of age or over ninety. The only condition attached is that every lady must be a married person. Home and home games.

Hillcrest was almost deserted on the occasion of the hockey game, Coleman and Hillcrest at Coleman on the 16th. If one half of the money poured into the other camps during the hockey season was spent in supporting our own boys, Hillcrest would have a splendid team. It is also local talk that one prominent resident lost twenty-five cents on the game.

Congratulations to one of the village boys, Arnold Smith, in being appointed manager of the McGill University hockey team. It is to be hoped that in the near future he will pay us a lengthy visit and take some of our boys in hand, as we have the makings of a splendid hockey team—home brew—not one of them imported. All they require is a little tuition and a covered rink.

On Friday, the 16th, a pleasant party was held at the residence of Mr. and Mrs. T. Davies to celebrate the New Year. The following were guests: Misses E. Davies, M. Davies, E. Jones, H. Westrup, Elma McMullen, Jennie Collinson, Peggy Collinson, Peggy Richards, Margaret Stevenson, Mary Stevenson, Kathleen Rose, Helen Rose, Mary Warriner, David Tonks, George Tonks, Gilbert McMullen. After loading up with the good eats provided, the rest of the evening up to 8 o'clock was spent in singing and dancing. All voted a splendid time. Tom says he was glad a hockey match was on, as it gave him a chance to get away.

The concert held in the Union hall on Wednesday the 14th, in aid of the church funds, was a complete success in every way. The hall was crowded and the talent splendid. The following programme was rendered under the chairmanship of Mr. Frank J. Oates: Hillcrest Orchestra—March, "Con Winner," and encore, "Love and Roses."

THEY WERE ALL GRATEFUL

This epitaph actually exists on a tombstone in Ozark County, Missouri: "Here lies my wife, Samantha, Proctor, Who ketch'd a cold and wouldn't doctor. She couldn't stay, she had to go, Praise God from whom all blessings flow."

A grand St. Valentine's dance will be given in the Union hall at Hillcrest on the night of Friday, February 13, under the auspices of Mizpah Temple, Pythian Sisters. The Nighthawks will provide music.

The local branch of the G.W.V.A. held their annual meeting on the evening of Monday, the 19th inst., in the club rooms. The presiding officers for 1925 were elected by acclamation, with the following additions to the executive council to replace members retired or resigned: George Moffat, Kenny Englesome and Al. Calhoun. This financial report showed the local branch to be in a most satisfactory condition.

No acquaintance with women convinces us that most of them are not as foolish as the dope printed in women's magazines would indicate.

Vocal Duo—Mrs. Pinder and Miss Harrison—"Down the Vale."
Vocal Solo—Mr. John Creighton, "Philadelphia in The Morning," and encore, "Keep on Hoping."

Violin Duo—Messrs. Moser and Stobbs.
Vocal Solo—Miss Harrison, and encore, "Swanee."

Pianoforte Solo—Mr. G. Altham.
Vocal Solo—Mrs. Pinder, "Roses," and encore, "I Ain't Got Nothing."

Quartette—Violins, Messrs. Moser Stobbs, Jasbec and Miss Moyle.
Hillcrest Orchestra—"Under The Double Eagle," conductor Mr. J. E. Upton, accompanist Mrs. Tonks.

The stage was cleared for the sketch, entitled "When The New Minister Arrives," which caused roars of laughter, the following taking parts: Mr. J. Smith, Mrs. Pinder, Mrs. H. Harrison, Miss M. Henderson, Miss Harrison, Miss E. Stenhouse, Mrs. R. Creighton, Mr. D. Grant, Mr. Smith, as "Bob Ewan," impersonating the minister, got into an awful mixup, but got a wife (Miss Henderson) out of it and it was only the timely arrival of the real new minister, D. Grant, that saved the situation. Mrs. R. Creighton, as the Irish cook, with her pigtail, was just in the right place. Since then she has received invitations to go to Hollywood. Miss Stenhouse, as the simple girl—phew, and lord save us from Mrs. Henderson's ampilions. But all the characters we've good.

COWLEY HAPPENINGS

H. D. McMillan is a present Calgary visitor.

Mrs. Archie Swart has returned from a visit to Lethbridge.

Mr. and Mrs. Robert Welsh have gone to Vancouver for an extended holiday.

Several of the local folks attended the hockey game at Coleman on Friday last.

The Banff orchestra will hold a dance in Tustian hall on Monday, the 26th.

Mr. and Mrs. Clarence Gilmore are receiving congratulations on the arrival of a daughter.

Mr. and Mrs. Gilbert Cleland, of Wrentham, are the guests of Mr. and Mrs. Roland Easterbrook.

Mr. Smith, of the Union Bank staff, has returned from a few weeks' visit to Winnipeg. Mrs. Smith and son will return later.

"Have you 'Kissed Me in The Moonlight'?" he asked the young lady behind the counter. The young lady gave him a startled look and replied: "It must have been the girl at the other counter. I've only been here a week!"

It Can Be Done

Canadians have never been afraid to tackle big problems, and have never displayed undue hesitancy in embarking upon great undertakings. This characteristic has been shown by Canadians almost without number, and has been displayed over and over again by the people of the Dominion in their collective capacity through company and co-operative organization and as represented by the Federal and Provincial Governments.

The building of the Welland and Soo Canals, the development of one of the great seaports of the world on a river 1,600 miles inland, the construction of not one but three great trans-continental railways, the hydro development in Ontario, the great farmers' co-operative undertakings in the West, and many other outstanding enterprises tell the story of Canadian initiative, resource and energy, backed by infinite patience, an unconquerable courage, and an abiding faith.

Perhaps this national characteristic was never more vividly revealed than when Germany first made its threat against the liberties of the world and aimed its militaristic blow at the civilization of the twentieth century. Although far removed from the actual scene of impending hostilities, Canada did not hesitate but stood shoulder to shoulder with Britain in defence of British honor and the cause of freedom, and poured out its wealth in manhood, materials and money without stint. And the same dogged determination, perseverance and courage characterized the Canadian armies in the field throughout the long and bitter struggle until they came to be recognized the world over as constituting the spearhead of the Allies' offensive in the most critical operations.

Success has crowned the efforts of Canada in carrying out its many large and bold undertakings. Seemingly unsurmountable difficulties have been overcome and the scattered and weak group of little colonial units of fifty odd years ago have been welded into one of the coming nations of the world.

Since the close of the war, Canada has had entirely new problems to face which were created by and are a direct outcome of the war. Notably it has to carry an enormous load of debt for a small population, and, staggering under that load, has had to pass through the disturbed economic conditions and depression of the after the war years. Compared with other countries it has done well and is now emerging into the high road of renewed activity and retuning prosperity.

But it is not in the more material things alone that Canada is revealing the national characteristics of organization, initiative and perseverance. Let us cite but one example. Practically all civilized countries have been confronted with the enormous loss of life and economic strength resulting from the ravages of what has come to be termed the Great White Plague—tuberculosis—which is eating its way into the very vitals of the human race. Canada began warfare on this insidious enemy some years ago and has continued on the offensive against it with increasing force year by year.

It is interesting to note that during 1934 Canada had the lowest death rate from all forms of tuberculosis yet recorded, either on the American continent or in Europe, and in the Province of Saskatchewan, where the battle against tuberculosis has been most vigorously fought, the lowest death rate for any province is recorded, either from tuberculosis or any other cause.

What it has thus been demonstrated is capable of accomplishment in overcoming tuberculosis through organized, persistent, scientific effort, is equally possible of achievement in the eradication of other evils if the people of Canada make up their mind to destroy them. There are in Canada, as there are everywhere, people who seem to enjoy looking on the dark side of things, who prefer to think and talk expressively instead of encouraging. While such people are usually not taken into consideration, their negative influence, the impression they sometimes create is not warranted by their numbers or the actual facts of the situation which they so grossly distort. Fortunately, as the above record shows, they are not representative of Canadians and Canadian character.

Canadians today, as of yore, are of a breed which says that if a thing requires to be done, it can be done, and they possess the necessary qualities and the grit to achieve success in any undertaking to which they turn their hands and brains.

Alberta Beekeepers

Money Production Makes Big Gain In 1934

There are now approximately 160 beekeepers in Alberta, and the production was approximately fifty-five thousand pounds for 1934, which at the average of twenty-five cents, is \$13,750.00.

The production was practically twice as much as in the previous year, which is due to the fact that a great many have entered the business during the past season.

The largest producers with respect to quantity, are in the irrigated areas of the south, but the largest number of beekeepers are to be found in the west central district of the province. These are mostly all small producers.

New Zealand To Exhibit

The New Zealand Government has decided to be represented at the British Empire Exhibition at Wembley this year. Preparations are now being hastened for the removal of exhibits and replenishment of cinema material. The present decision reverses the one arrived at in October, and has been communicated to the British Government by the high commissioner for New Zealand.

Spain Once Claimed

Entire Pacific Coast Seized From British Traders and Took Potatoes

In early times Spain claimed the entire Pacific Coast, including what is now British Columbia. British traders were on the latter coast and had established posts there. A Spanish fleet seized the posts and Spanish officials took possession of the coast. Britain protested and was prepared to maintain her claim even by force of arms. Negotiations followed. They were protracted but in the end Spain withdrew her claim, and the matter was settled by a treaty signed in 1790. It was during the negotiations that Captain Vancouver, with a small squadron, was off the coast.

Famous Pianists Give Concert

The greatest piano concert ever given in New York was put on at the Metropolitan Opera House for the benefit of the Association for Improving the Condition of the Poor. The concert of 19 of the world's most famous pianists played on 19 different pianos and simultaneously.

Malaya produces about one-third of the world's supply of tin.

Protection and Tuberculosis

Ingenious Argument is Advanced by a Toronto Physician

Protection against fresh imported vegetables is a protection for tuberculosis, said Dr. Frank N. Walker, addressing free traders at Toronto during the organization of the Free Trade Club. The 20 per cent tariff suggested by Niagara fruit interests against early foreign vine-leafing food, he denounced as a move to aid the white plague.

Fresh fruits and green vegetables had proved leading factors in reducing the tuberculosis death rate. Twenty-four persons, including three manufacturers and three women, attended to pledge vigorous action leading toward complete free trade.

To Be Honored With Statue

Proposed Statue to be Erected at Ottawa to the Saunders Family

A movement is on foot at Ottawa to erect a statue at the Central Experimental Farm at Ottawa, to the Saunders family. Dr. William Saunders was the first director of the farm, while his son, Dr. Charles, discovered the prolific variety of wheat known as Marquis, which has brought hundreds of millions of dollars to the west.

Home Not Complete Without Nervinell

When your stomach is badly upset when you are belching gas and suffering from nausea, the quickest relief will come from 20 drops of Nervinell. Take it in sweetened water and you get an immediate relief. Nervinell has been used for nearly half a century and is considered a necessity in most homes, because of its usefulness in preventing many small ills that constantly arise. Sold everywhere in 35 cent bottles.

Old Men Stage Race

A coast-to-coast race between two grey-haired octogenarians on a sidewalk in Paris quickly drew a large audience. The race was staged, the old men explained to settle an argument as to which had retained his youth to the greatest degree. Neither man covered the distance that had originally been set, however.

WINTER HARD ON BABY

The winter season is a hard one on the baby. He is more or less confined to his little home, he is restless. It is so often stormy that the mother does not get him out in the fresh air as often as she would. He catches colds which rack his little system; his stomach and bowels get out of order and he becomes peevish and cross. To guard against this the mother should keep a box of Baby's Own Tablets in the house. These regulate the stomach and bowels and break up colds. They are sold by medicine dealers or by mail for 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

China Buying B.C. Cattle

Trade Shipment Proved Satisfactory and Business is Established. Until two years ago England exported to China many head of pure-bred dairy cows, the cattle making the journey by way of the Suez, the Mediterranean and the Indian Ocean.

Since that time a Vancouver firm persuaded the Chinese buyers that good dairy stock was produced in British Columbia and a trial shipment was dispatched. These animals gave such satisfaction that an established volume of business has followed. Each year two or three lots of dairy cows, five to six years of age, are sent over to Hong Kong.

Will Represent Soviets

Mme. Leo Kamenetz, Leon Trotsky's sister, is expected to represent the Soviet Government at the Decorative Arts Exposition in Paris, next summer. Before the war, she was a leader in a futurist art group, which made the Cafe Rotonde known. In the political struggle between her husband and her brother recently, she sided with her husband.

For First Aid—Minard's Liniment

Many Kinds of Fleas. In a county court action at Ottawa against a tenant for alleged damage to a house by fleas off a Persian cat and pet rabbits, evidence was adduced that there are 354 varieties of fleas, but the case was dismissed because the evidence of the entomologist in the department of agriculture.

French Like the Canadians

While the French were kind to English and United States students, they had an especially warm regard for Canadians, said Miss Alice Sharples, who has just returned from studying at the Sorbonne, speaking before the Montreal McGill alumni.

Wine is the only one known enough to catch on at the proper time and let go at the psychological moment.

Shipbuilding in Britain Falls Off

France, Holland and Italy Have Increased Their Construction

Shipbuilding in Great Britain and Ireland has fallen off, according to a statement just issued by Lloyd's register of shipping, based on figures for the quarter ended December 31 last. Three months ago Great Britain and Ireland were constructing 256,400 tons more of merchant shipping than all the other maritime nations of the world combined.

The report of the quarter just ended shows that they are now 125,000 tons behind the other countries.

Other figures show that the United States has also fallen behind in its construction of ships. Other nations of the world show an increase of 700,000 tons, while the United States has fallen off by 6,000 tons.

France has increased her amount of work under construction by almost 60,000 tons; Holland by 58,000; and Italy by 22,000. In Germany it has been diminished by nearly 30,000 tons in the yards of Japan fell off 11,600 tons.

A Similarity of Interests

Canada and United States Are Very Closely Allied

Our proximity to the United States, identity of language and similarity in many respects of customs and ideas create a condition which cannot be ignored. We must expect a large trade, intimate financial relations, intermingling of populations, absorption of notions embodied in sports, literature, theatre, business, domestic and social habits.

Many of these influences, though attracting much attention, are superficial. The real basis of the relationship is in the minds of the people. Our real safeguard lies in the strength of those convictions and ideals, and in the independence and originality of thinking or national and other great questions.

—Toronto Globe.

Canada Grain Act

Grain Inquiry Report Not For Publication Till Tabled In House

Revision and amendment of the Canada Grain Act will be among the first of the agenda before the coming session of Parliament at Ottawa, according to Leslie H. Boyd, chairman of the Grain Commission.

Judge Turgeon, chairman of the Royal Inquiry Commission which investigated the grain trade, will assist in the work of preparing the new Grain Act. The report of the commission will not be made public before it is tabled in the House, but has been completed and is in the hands of the Department of Trade and Commerce.

Canadian Woman Wins

Takes Prize at Fruit Cake Competition in England

Mrs. Schram, of Acton, Ont., has received the prize in the competition in fruit cakes with the ladies of Acton, England, at a bazaar held there recently. John Taylor, Secretary of the Acton Chamber of Commerce at Acton, England, writes:

"Our people here appreciate very much the response in the matter of the cake competition. Should you Acton women folk decide to challenge our Acton women folk to another contest in the future I will do all in my power to make it a worthy contest."

Cold In Caucasus

Shepherds and sheep; Cattle and herders. Are Frozen to Death

One hundred persons and thousands of cattle have been frozen to death during the unprecedented cold weather prevailing throughout the Caucasus. In several cases shepherds and farmers who went to tend their sheep or cattle were found frozen to death with their flocks.

The Caucasus has not experienced such bitter cold for a century, and it is feared the effect on the crops will bring famine next year.

Chas. Evans Hughes Retires

U.S. Secretary of State to be Succeeded by Frank B. Kellogg

Charles Evans Hughes has resigned as secretary of state at Washington and will be succeeded by Frank B. Kellogg of Minnesota, now ambassador to Great Britain. The resignation of Mr. Hughes will be effected March 4th, when he completes four years as head of the state department. Mr. Kellogg is expected to take office immediately afterward.

Paper Mill For Manitoba

Approximately \$2,000,000 will be spent on a transmission line and electrical equipment for the pulp and paper mill which J. D. McArthur of Winnipeg proposes to erect at St. Boniface, Man. Four hundred miles of copper will be needed, 1,000 steel towers, 6,000 insulators and 2 new turbines, etc.

BIG GAINS REPORTED BY THE ROYAL BANK OF CANADA

Deposits Increase Over Forty Millions During Year—Holdings of Government and Municipal Securities Show Gain of Over Thirty-three Millions—Profits Well Maintained.

One of the most impressive features of the financial statements of some of the largest institutions of Canada that have been made public recently is the exceptionally strong liquid position that is indicated in the balance sheets. The report of The Royal Bank of Canada for the year ending November 30, 1934, is an excellent illustration of this. Out of total assets of \$257,789,695, no less than \$125,024,739 are classified as immediately available liquid assets, representing 47.7 per cent as compared with 42.2 per cent for the previous year. These liquid assets comprise also 54.5 per cent of the bank's liabilities to the public as compared with slightly over 45 per cent shown in the statement of the previous year, a gain of over five per cent.

Strong Liquid Position
While this bank has always maintained a policy of providing itself with an abundant amount of liquid reserves, in order that it might be in a position to provide cash for the various periods of the year when special demands are made upon it, such as the financing of the Canadian wheat crop and the intensive buying of the liquid investments of the bank in high grade securities have been rather liberal since the last year. This has been done partly to the fact that current rates will show a tendency to decline, and also the lack of normal activity in business. Thus the holdings

of government have increased by \$2,265,774 to a total of \$52,233,722, and the total of municipal and provincial securities have come up from \$13,900,393 to \$20,843,747. The total increase in the two classes of securities amounted to \$6,943,454. The Royal Bank's deposits showed a decline of slightly over \$1,000,000 in the year, standing at \$144,492,335 as compared with \$145,757,787.

As the statement shows, the Royal Bank is in an unusually favorable position to provide adequate funds for the industries of the country at such time as these may require loans upon it.

Satisfactory Gain in Deposits
A study of the deposits of the Bank indicates that they are continuing to show a strengthening of the confidence that is felt in the Royal Bank throughout the country. One year ago savings deposits stood at \$61,789,157, and on November 30, 1934, they had increased to \$63,217,427. Loans of \$5,233,345 in deposits also showed a substantial increase, the total increase being \$10,369,000, the total increasing from \$145,528,000 to \$145,558,000.

The Profit and Loss Account shows that the bank has been able to maintain its profit in spite of the greater difficulty of finding its money at profitable rates of interest. The profit for the year ending November 30, 1934, was \$1,578,974, compared with \$1,595,345 for the previous year. After meeting the regular dividends of \$400,000 for bank privileges and \$100,000 for the officers and directors and providing \$46,000 to take care of the reserve fund, the bank has a balance of \$1,032,974, which the bank has commenced the fiscal year of 1935-36.

Find Undelivered Mail

Hundreds of Letters in Home of Dead Belfast Postman

More than 1,000 undelivered letters from all parts of the United Kingdom, including registered packets as well as ordinary mail, were found hidden in the home of Thomas S. Keady, a postman, who died. Some of the letters were more than ten years old, and were found secreted in Keady's bed and in different parts of the house. All were unopened, and will be delivered to addresses in the near future. Officials are at a loss to explain Keady's action in hiding the letters.

Your Home Medicine Chest—Among

the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pain, treating sore throats and chafes, coughs, hives, scalds, cuts, bruises and sprains.

Russia To Buy Autos

Soviet Government Plans Large Purchase of Motor Buses

The Russian Soviet Government has invited makers of foreign motors to participate in an auto trip in July, 1935, over a 4,000-mile course from Leningrad via Moscow to the Caucasus. The mission is to investigate conditions of purchase on a large scale of motor lorries, buses for provincial towns and motor cycles and to study the machinery used for fire brigades in western countries.

Collection Was Costly

It took 180 policemen to make a Paris, France, taxi driver pay his income tax, which amounted to \$2. Expenses of collecting the sum came to \$16, plus the policeman's time. The driver mobilized his friends and barricaded himself in his home, but finally surrendered and paid.

An English inventor has designed a submarine magnet for lifting magnets of iron and steel plate from wreckage.

Some people are so conscientious about loving their country that they haven't any they are perfectly willing to make a few.

Radio Wave Hits Turkey

Modern Turkey is climbing onto the radio bandwagon. The Anatolian Telegraphic Agency recently commissioned a German firm to install the first radio sending and receiving plant.

CONTINUE WORK OF IMPROVING STOCKS OF SEED

Saskatoon.—The progress we have made in the past in field husbandry is only a foundation on which to build greater things for the future," declared Prof. Manley Champlin, professor of field husbandry at the University of Saskatchewan in an address on "Looking forward in field husbandry" at the agricultural societies convention. "At the university, we must continue to study the fundamental principles of crop rotation and soil productivity. We must continue to test new varieties of field crops and compare them with the old ones to prevent frauds being perpetrated and to prove the value of really superior productions of the field breeders here. We must continue to produce elite stocks of seed of the best varieties, giving them every attention that unrelenting toil and thought can give."

"We must keep on trying to develop, through scientific plant breeding methods, varieties that are better for our conditions than any we now have. The future of the field is unlimited. We need a rust resistant wheat that will also be resistant to blights of various kinds and that will possess a sturdy straw and good milling quality. That is a large order, but with the wonderful advances that have been made in the science of plant breeding during recent years, it ought to be within the range of possibility. We now have rust resistant varieties of wheat but all of them possess some serious defect. For example: Acme wheat resists rust but it is susceptible to blight; Kona wheat resists rust but does not yield as well as the old varieties; Kanares wheat is very early and does not yield as well as the old varieties."

Optimistic Outlook

Conditions Now Better Than At Any Time Since the War

Winnipeg.—An optimistic outlook is being justified now than at any time since the war," stated Premier John Bracken in addressing the Manitoba agricultural societies convention. As reasons for his statement—the premier cited the improved world conditions, the acceptance of the Dawes plan, the greater stability in England and the United States consequent on recent elections, the improvement in rates of exchange, making Canada a better field for capital, and the increased purchasing power of the farmer's dollar.

Endorsed Proposal For Trade Relations

British Guiana Will Send Representative To Ottawa Conference

Georgetown, British Guiana.—The commercial interests of British Guiana have been represented at the Ottawa conference by Mr. J. Logan, M.P., special Canadian commissioner here, and strongly endorsed his proposal for closer trade relations between this country and Canada.

The invitation conveyed by Mr. Logan from Premier King of Canada, to send delegates to attend a joint conference to be held at Ottawa next spring was cordially accepted.

Received Thanks From Prince

London.—William Phillips, European manager of the Canadian National Railways with headquarters in London, was received by the Prince of Wales at St. James' Palace. The Prince expressed his thanks for the arrangements made for his comfort and convenience on the C.N.R. during his trip to the Dominion last autumn.

Money Makes Berlin Gro

Berlin.—Since the rentmark was abolished, Berlin has become a better city in which to live. Such would seem to be the opinion of at least 42,885 Germans who swelled the population of the capital during the first nine months of 1924.

Quickly Relieves Constipation

Don't let constipation poison your blood and curtail your energy. If you live and bowels don't work, you're not living. Only take CARTER'S LIVER PILLS. Fills bowels, fills blood, and gives you the energy to live. For children, lack of appetite, headache and indigestion. Small Pills—Small Dose—Small Price.

W. N. U. 1569

Value Of Horticulture

Makes For Permanency of Farm Life In Western Canada

Winnipeg.—"Among chief obstacles to be encountered in agricultural progress on the prairies is the idea of making a fortune rapidly, and then going elsewhere to live," stated Dean W. C. McKinnon, Manitoba Agricultural College, at the annual banquet of the Manitoba Horticultural and Forestry Association here. "Twenty years' observation leads me to believe that prairie farming is too often successful and short, or unsuccessful and discontented. The development of horticulture is among the chief means of overcoming this obstacle. Beauty and comfort in home surroundings with home grown foods, attach those responsible for them to the place where these are produced. With better home building, of which horticulture is the very heart, agriculture becomes permanent."

C.N.R. Contemplating

Branch Line Programme

Question of Western Extensions to Come Before Parliament Soon

Ottawa.—A branch line programme is contemplated by the Canadian National Railway for the forthcoming session of parliament. The railway has for the purpose of the session a bill for which the parliamentary sanction will be sought are not yet definitely indicated, but so far as the west is concerned, it is believed that practically all of the projects rejected by the senate last May will be re-submitted. It will be argued again that the lines are required as feeders for the national system and for development and colonization purposes generally. It is doubtful if some of the eastern projects are revised.

Sir Henry Thornton has been in conference with Hon. G. P. Graham.

Natives Of India May Cause Trouble

Greatly Angered Over Export of Monkeys Says Report

London.—The native extremists in India have started a campaign against the wholesale exportation of monkeys, which has reached remarkable dimensions in recent months, according to the Daily Telegraph's Calcutta correspondent, who predicts that this propaganda will arouse angry feeling among the Hindus, millions of whom worship monkeys.

The editorial warns the government that unless it forbids this "devilish trade" it will have a terrible responsibility when the consequences of the popular indignation become manifest.

Will Not Alter Rating

Railway Commission Decides Classification of Liquor Will Stand

Winnipeg.—Application for a reduction in the classification rating of liquors which was made on behalf of the Manitoba liquor commission before the Railway Commission, was refused, according to the Canadian Freight Association in Winnipeg. The judgment of the board states: "Liquor conditions warrant a different conclusion, we think the present classification should stand. The application, therefore, is refused."

Famine Report Exaggerated

Adequate Relief Measures Have Been Taken In Korea

Tokyo.—Korea, reports that have been circulated to the effect that 3,000,000 persons have been famine stricken are greatly exaggerated, according to announcement in government circles. While admitting the existence of famine conditions in Korea, due to the failure of the rice crop, government officials are inclined to minimize reports of suffering. Adequate relief measures have been taken, it was said.

Settlers For Saskatchewan

London.—A large family named Bradley, belonging to Retford, Nottinghamshire, is emigrating to Saskatchewan under the government migration scheme. The family consists of 35 members, and takes in three generations, all having had farming experience.

Protests Potato Embargo

Ottawa.—Hon. W. R. McWhorter, minister of agriculture, forwarded a cable to the high commissioner at London, protesting against any proposal of enlarging the potato embargo on the shipment of potatoes from Canada, and asking for further official information on the matter.

Increase In Wheat Crop

Ottawa.—A cable received from the international institute of agriculture, Rome, states that the production of wheat in Australia is 323,000,000 bushels, compared with 125,000,000 last year, and 105,250,000 the average of the previous three years.

Propose Larger Annuity For Dr. Chas. Saunders

Ottawa.—John Miller, M.P. for Qu'Appelle, will propose a resolution this session to provide an annuity of \$4,000 to Dr. Charles Saunders discoverer of Marquis wheat. Mr. Miller considers the \$1,200 upon which Dr. Saunders was retired to be utterly inadequate considering the millions that have been made out of the product of his research.

Grade Wheat for Milling Value

Suggest That Saskatchewan Government Establish Laboratory

Saskatoon, Sask.—A resolution requesting the provincial department of agriculture to investigate the feasibility of establishing a laboratory to study and establish a system whereby wheat might be graded according to its milling value was passed here by the Saskatchewan Field Husbandry Association. "If we cannot continue to produce seed on a scale satisfactory to ourselves we will have to dissociate ourselves from the Canadian Seed Growers' Association and run our own business in our own way," declared Prof. Manley Champlin, secretary, addressing the meeting. Prof. Champlin stated that the association that a movement was on foot to limit the acreage assigned in each province for elite seed production, to five acres. This prohibitive resolution, he said, would be brought before the C.S.G.A. when it meets in Edmonton during the coming summer.

PAYMENT TO CANADA UNDER THE DAWES PLAN

Ottawa.—Canada will receive five thousand pounds sterling per year less from the annuities payable under the Dawes plan as a result of the agreement signed at the inter-allied financial conference, which provides for the United States being paid 24 per cent of all payments, it was stated in official circles here.

Generally speaking, the belief is expressed that the whole question has been dealt with very satisfactorily, insofar as Canada is concerned. When the matter was investigated personally by an official of the Dominion Government in November last, the position of Canada did not appear to be at all altered. In the first place, the amount paid for the benefit of the British Empire was very difficult to estimate, on account of the cost of the armaments of occupation and the priorities of Belgium and Italy. Furthermore, it was not settled whether the amount received by the United Kingdom, under the German Reparations Recovery Act, would be taken into consideration, and payments made to Canada. This also applied to the United States.

Many Die In Earthquake

Four Villages Destroyed and 140 People Killed in Caucasus

London.—Four villages have been destroyed, and 140 people killed, in an earthquake at Ardahan, in Trans-Caucasus. The dispatch adds that 2,000 persons are homeless, with the temperature here, however, below zero. Earth shocks are continuing intermittently.

Must Not Eat Raw Oysters

Chicago.—Eating raw oysters in Chicago henceforth will be punishable by a fine of \$25, Corporation Counsel Duane has ruled. Health Commissioner Hindson announced he was starting to post warning signs. The state health department has forbidden the eating of raw oysters because of typhoid fever cases which have been traced to eating the bivalves.

High Seed Standard

Saskatoon.—Exhibits this year at the annual provincial seed fair were of an exceptionally high standard and competition the keenest in years. Some of the Marquis wheat shown excelled the standard of international prize winning seed at Chicago, in the opinion of the judges.

Australia's Population 5,000,000

Melbourne.—The Australian population is now approximately six million and is increasing at the rate of 2 per cent annually. The largest city is Sydney, with a population of 1,000,000.

Britain's Well-Beloved Actress

Ellen Terry, who became a Dame of the Order of the British Empire, at the New Year's distribution of honors

Ellen Terry, who became a Dame of the Order of the British Empire, at the New Year's distribution of honors

Coolness May Result From Soviet Policy

Tension Between French and Russian Governments is Reported

Paris.—That there is some tension between France and the Russian Soviet Government, was indicated by Premier Herriot, when he told reporters that "if the Soviets continue to carry out a Soviet policy in France, a coolness might result." Mr. Herriot said that the instructions carried to Moscow by Jean Herbet, the new French ambassador to Russia, contained this information to the Soviet Government. The tension arises mainly from the longer delay by M. Zinovief, president of the Third International, in declaring to the French Communist party the policy it should follow.

Share-selling Sharks

Protection Sought For People of Saskatchewan Against Worthless Companies

Regina.—Protection is being sought for the people of Saskatchewan against share-selling sharks employed by worthless Dominion companies operating under Dominion charters. The Saskatchewan Legislature unanimously endorsed a resolution authorizing the Provincial Government, in co-operation with other Provincial Governments, to continue to urge upon the Dominion Government the necessity for asking the Parliament of Canada to pass legislation giving the provinces power to control and regulate within their own borders the sale of shares of all companies.

Begins To Regret Treaty

Australia Thinks Arrangement With Canada Too One-sided

Melbourne, Australia.—Although the reciprocal tariff with Canada was received first with enthusiasm and was ratified by the Federal Parliament by a vote of 25 to 7, the feeling in business circles here is less buoyant.

The tariff board reported as follows: "The proposals are admittedly of greater immediate benefit to Canada than to Australia. Raisins and currants are the only lines in which we can expect to do extensive business. The one great concession, one which Canada is very anxious to have, is the open market in Australia for new-print."

No Money to Waste

Toronto.—Declaring that there were many demands on the Federal Government for improvements in various parts of the country, Hon. Dr. J. H. King, minister of public works, told a delegation of city officials, harbor commissioners and city members of parliament that consideration would only be given this year to works of the greatest urgency.

Cattle Disease Spreads

Malmö, Sweden.—The epidemic of the hoof and mouth disease in Skaneateles, Sweden, has already caused the slaughter of 10,000 head of cattle, involving losses of nearly \$2,000,000. A number of Sweden's most valuable prize-breeding animals have become victims of the disease, and all export of live cattle is prohibited.

Furthering Empire Commerce

Ottawa.—Improved methods of marketing products from all parts of the Empire in Great Britain, is expected to be the basis of deliberations by the Imperial economic committee, to be reconstituted shortly. Canada is expected to receive particular benefit in trade expansion from the proposal.

Saved The Teeth

Edmonton.—Saved safely in a tumbler-shaped cake of ice, a set of false teeth was discovered in the debris of the Syndicate Block by a tenant who was driven out by a night fire which completely demolished his suite in the top floor a few days ago.

Arrange Anglo-French Debt Conference

London.—An Anglo-French debt conference will meet in February or March, according to an Exchange Telegraph Company message from Paris. If the conference should be held, it would mark Great Britain's acceptance of the United States thesis that the various war debts are subjects best settled between the creditor and the debtor, and not through round table conferences of all the nations concerned in the war against the central powers.

Loses Life In Storm

Girl Mountain Climber at Denver Overaken By Blizzard

Denver, Colo.—An effort to scale the east face of Long's Peak in unfavorable weather, a previously unaccomplished feat, cost the life of Miss Agnes Valle, secretary of the Denver Chamber of Commerce, Interlud mountain climber, and daughter of F. C. Valle, retired Denver millionaire.

President's Financial Outlook

Optimistic View

Toronto.—"Surely we may look for a gradual, if slow, improvement and we confidently hope that its coming is not far off," said Mr. J. A. Aldrich, president of the Canadian Bank of Commerce, summing up his opinion of Canada's financial and business outlook for the year at the annual meeting of the shareholders of the bank here.

Canada Needs Population

McGill Professor Says Dominion Must Adopt a More Decisive Policy

St. John, N.B.—That the economic salvation of Canada was to be found only in the influx of men and money into this country as part of a scheme which he described as the economic integration of the British Empire, was a statement made here by Professor Stephen Leacock, of McGill University, Montreal, in an address before the Canadian Club. Saddled with a railway and manufacturing system capable of absorbing the needs of 25,000,000 people, the Dominion had but one course and that was to go ahead.

BETTER DAYS FOR THE FARMER ARE IN SIGHT

Saskatoon, Sask.—More diversified farming, better production of crops, and a more careful regard for the sanctity of contracts, and the maintenance of credit, and respect for constituted authorities, were emphasized by President N. B. Williams, at the opening of the annual convention of the Saskatchewan Agricultural Societies here, as factors which ultimately will have to govern the business methods of western farmers.

Mr. Williams, in a temperate review of the situation of agriculture in the province, mentioned the improved financial condition in general, as evidenced by the returns to financial and insurance companies by their holders. While asserting the ability of Western Canada, to experience a financial metamorphosis almost in one crop season, Mr. Williams advocated the adoption gradually of a system of farming which would to some extent make the farmer less dependent upon the eccentricities of weather.

May Become Separate Nation

Bill to Come Before Parliament of South Africa

London.—Some misgivings have been aroused here by a cablegram from Pretoria stating that the government of the Union of South Africa intends to introduce a bill in the South African Parliament dealing with the question of a South African flag, and creating a South African flag. The cablegram adds that it is believed the proposed bill lays down the principle that a person who becomes a British subject does not necessarily become a South African citizen, and therefore, if the bill becomes law it will create a South African nationality.

Parasites Affect Livestock

Saskatoon.—The extent and variety of parasites injurious to livestock as demonstrated in the research carried on at the new laboratory devoted to the investigation of animal diseases was another proof of the value of the research work carried on at the university in the agricultural industry of the province. It was found that the extent to which these parasites were affecting young livestock was much greater than previously realized.

New Lieutenant-Governor

Ottawa.—James Robson Douglas, knight, K.C., is appointed lieutenant-governor of Nova Scotia in succession to Hon. MacCallum Grant, who resigned. The appointment of Mr. Douglas dates from the 21st of this month.

FREE - A Farm Library

One would often give much to be able to lay his hands on a collection of reading seed for himself, preparing a ration for laying hens or for doing a hundred and one other kinds of work about which he has read. A proper system of preserving and circulating pamphlets would meet such a need at all times. Such a system has been devised by the Department of Agriculture at Ottawa. It is fully explained in THE PUBLICATIONS INDUSTRY BOOK in which the pamphlets of the Department
